

LAB TWO – ALL ABOUT THE DOM

Now we've explored the DOM, it's time to put your knowledge and skills to the test. There are five different activities for you to work through this week. Each activity is one part of your final lab submission.

To access your lab instructions, navigate to : <https://jessicagilfillan.github.io/COMP1073-Winter2021/week-5/>

For this lab, feel free to collaborate with other learners in your WebEx breakout room, however, you should create your own code and each learner should submit a lab.

Learning Objectives:

- manipulate DOM nodes, element attributes, and Cascading Style Sheet (CSS) properties

Assessment:

You will be assessed on the following:

	Not Quite	Almost	Awesomesauce
Understanding the DOM (2 marks)	Developer did not demonstrate understanding of the DOM & DOM nodes. (0 marks)	Developer demonstrated good understanding of the DOM & DOM nodes. (1 marks)	Developer demonstrated excellent understanding of the DOM & DOM nodes. (2 marks)
Selecting, Walking & Manipulating The DOM (3 marks)	Developer was not able to select elements, traverse the DOM and manipulate the DOM (0 marks)	Developer was somewhat successfully able to select elements, traverse the DOM and manipulate the DOM (1.5 marks)	Developer was successfully able to select elements, traverse the DOM and manipulate the DOM (3 marks)

Lab Due Date:

Tuesday Section : Friday February 19th @ 11:59pm

Thursday Section : Sunday February 21st @ 11:59pm

Lab Weight:

2.5% of final grade

Submission Details:

Please submit all code files as a zipped folder on Blackboard or include a link to your GitHub repo.

!important

Please ensure that any work you submit is your own unique and independent work. Work submitted that is found to be not your own unique, and independent work will be subjected to a grade of 0 and considered to be academic misconduct.
